

ACPA PAW PLANT TOUR

Please join us for a morning of breakfast, awards, and a precast box culvert manufacturing tour as we recognized those involved with the 2024 Schultz Creek Drainage Improvements at US-180 project - this year's recipient of the American Concrete Pipe Association Project Achievement award! The ACPA's Project Achievement Award recognizes agencies, consultants, and contractors that have demonstrated creative and innovative accomplishments through projects that have been designed using precast and concrete pipe or box culverts.

WHO

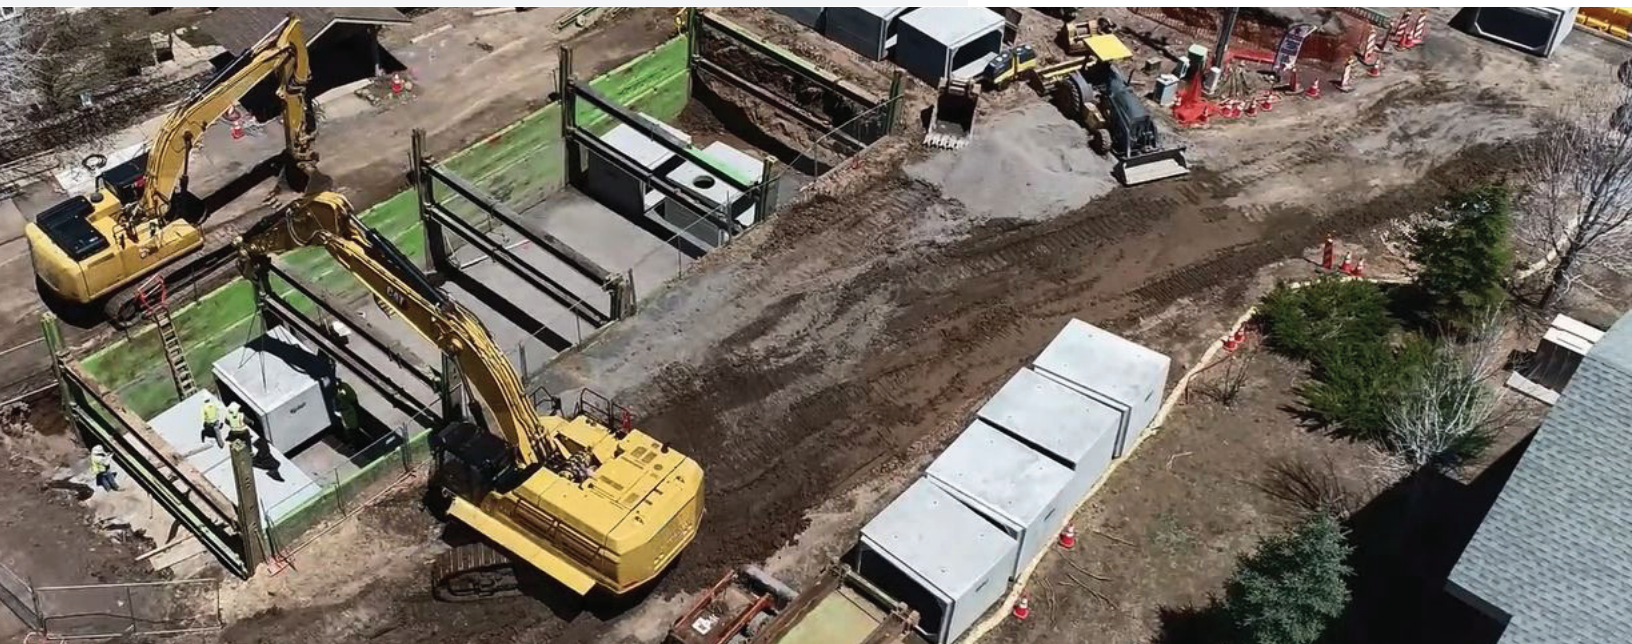

J Banicki Construction,
City of Flagstaff, Ardurra,
Arizona DOT
